

## WICK HILL AT INFOSECURITY EUROPE 2010

*Stand Number G20*

Woking, Surrey: March 16<sup>th</sup>, 2010 - Security value added distributor (VAD) Wick Hill is showing a wide range of new vendor solutions at this year's Infosecurity Europe exhibition.

The latest version of Checkpoint security products, including the modular Software Blades and Check Point's Full Disk Encryption for PCs and laptops will be on show alongside solutions from CRYPTOCard, a provider of market-leading authentication solutions. CRYPTOCard products include CRYPTO-MAS, a managed authentication offering, and other authentication solutions such as BlackShield ID and CRYPTO-Shield.

Infosecurity Europe 2010 sees the first UK exhibition appearance for WatchGuard's new Extensible Content Security (XCS) solution, which provides in-depth security for email, web and data loss prevention, as well as WatchGuard's new XTM (eXtensible threat management appliance) and SSL solutions. NETGEAR's recently launched ProSecure UTM range will also be showcased.

In addition, the most up-to-date releases of solutions from other Wick Hill vendors such as Kaspersky Lab, Allot, Barracuda Networks, M86 Security, VASCO, LogLogic and ArcSight will be on the stand, with Samsung spearheading Wick Hill's convergence offerings.

### NOTE FOR EDITORS

Infosecurity Europe 2010 is at Earls Court, London from 27<sup>th</sup>-29<sup>th</sup> April 2010
